Sorry, how do I get to IKEA?

Help our truck get back to the store.

Pencil-ships

Set your pencil ships on the black board, without them touching each other and without showing your rival where are they. Now, guess one turn at a time, where your rival ships are, (for exemple: A3) If you guessed correctly, mark X on your white board. The first to guess them all, wins.

4 In one shelf unit

The first player to complete 4 circles in a row, diagonal or column, wins. Each player marks one circle in his turn.
